The Big Local Plan – This document

Area Profile for Goldthorpe and Bolton on Dearne Big Local Area – the document produced from all the views from the community consultation, visioning events and statistics which helped draw up the Big Local Plan

Communications Plan – the different ways we use to try and let as many people as possible know what is happening

Action Plan – details of how we will make the plan happen. Each theme/project has an action plan

Outcomes – what has changed by implementing the things in the plan

SECTION ONE

INTRODUCTION TO GOLDTHORPE AND BOLTON ON DEARNE BIG LOCAL

What is Big Local?

Big Local is a programme that;

- Brings support and investment to the residents of Goldthorpe and Bolton on Dearne to make your community a better place to live
- Puts residents in charge and all residents views are important
- Gives funding of £1 million for the community to spend within a 10 year timespan and local residents decide how to spend it

Who are we?

We are the Goldthorpe and Bolton on Dearne (GB) Partnership Board which is made up from a group of local residents and other representation who live, work or have an interest in the area. We have come together to form the Board with the aim of steering, managing and delivering a range of projects and programmes funded by an award of £1 million from the Lottery's Big Local funding stream. We are all unpaid volunteers (but are currently assisted by a paid project worker (21 hours a week) who also lives in the area). We are also assisted and supported by a Big Local Representative who has been guiding us through this process. We are a representable mixture of young and old, some work some do not, some have lived in the area all their lives and others have only lived here a short time. We all share a common goal in wanting to work to improve the area we live and work in to make it a better and more attractive place to live.

A full list of who we are can be found in Appendix 1.

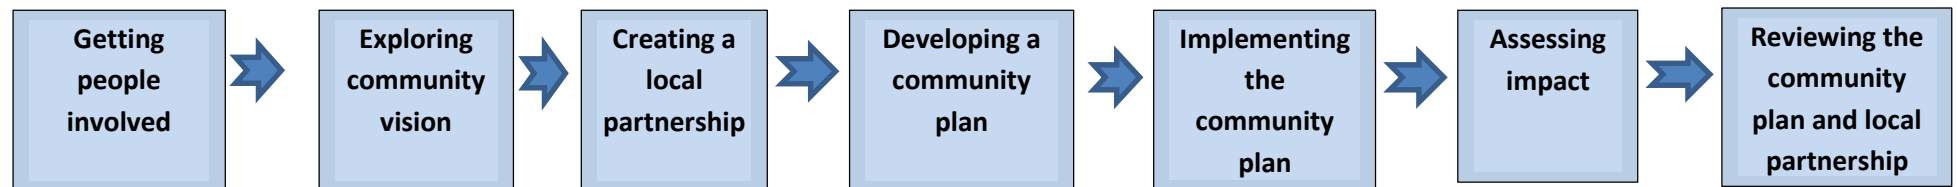

SECTION TWO

OUR OVERALL ROLE AND APPROACH

How did we get here?

We have worked our way through the stages of the Big Local Pathway (See Figure 1) and have worked hard to get people involved by consulting with them. This has enabled us to form an understanding of what they would like to see happening in the area. We are currently at Stage 4, Developing a Community Plan, which describes what we want to achieve with our money and how we will do it.

Figure 1 – Big Local Pathway

Why have we written a Plan?

The Plan has drawn upon the views and ideas derived from the community consultation which are contained in the 'Area Profile for Goldthorpe and Bolton on Dearne Big Local Area' **(See Appendix 2)**.

This Plan has been written for a number of **different audiences** including;

- Local residents so that they can see what is planned and how the Plan reflects their aspirations and how they will be addressed
- For us, the Partnership Board to use as a reference tool
- The Local Authority so that they can see what is planned and can gain an insight into how they can work with the Board
- Local community organisations, groups and charities so that they can understand the context that we will be operating in and will be able to contribute if they so choose
- Local Trusted Organisation, Voluntary Action Barnsley (VAB), which is the organisation managing the Big Local lottery money so they can see what we are planning to do

Our Plan has been written for a number of **different reasons**;

- It will give a clear understanding of what we want to do with our money and how we will do it
- Will give a defined timeframe and timescale for our activities and projects
- To help us map our progress to ensure we keep on track
- Will enable us to review the Plan annually and ensure we are monitoring our performance
- Enable local people to see what is going to happen and how it reflects their aspirations and vision for their community in 10 years' time
- Will give VAB a written plan that shows what is planned for the area and show how we are going to be spending our money

Where we are and what is our community like?

The GB Big Local sits within two different wards, Dearne North area and Dearne South area, Goldthorpe is located in both wards due to its' ward boundaries, Highgate lies within Dearne North and Bolton lies within Dearne South.

Due to the diverse demographics of the three areas there is a wide range of different types of properties and businesses in all three areas. The domestic properties are a mixture of older Victorian terraces; early to mid20th century semi-detached and detached properties and an increasing number of new build houses and flats. There is a mixture of tenure type including owner-occupied, social housing and private rented properties.

In general the owner-occupied properties are in a good state of repair but the area is blighted by the poor state of repair and maintenance of many of the private rented properties.

The area has vibrant shopping facilities including a main high street with a diverse selection of shops and a market with a range of stalls located within Goldthorpe. Highgate is within easy walking distance of the facilities at Goldthorpe and Bolton has some isolated shops with the main hub being located in the St. Andrews Square Shopping Centre.

There are four primary schools, the eldest of which is located in Goldthorpe, this is soon to be demolished and a new state of the art replacement will be built in a location close by. There is the Dearne ALC located in Goldthorpe which caters for 11 – 16 year olds and a further education college just outside the area. There is a medical centre and dental practice located in Goldthorpe and the area also has some community resources including a youth centre, Brownies, Guides, Cubs and Scout groups and also the Carnegie Centre (currently home to the Boxing Club and hopefully in time the community cafe) and also the Dearne Playhouse. There is a large parkland, Phoenix Park, which is located on the old Hickleton Colliery site which is used by dog- walkers and provides an open space with its' own wildlife and habitat.

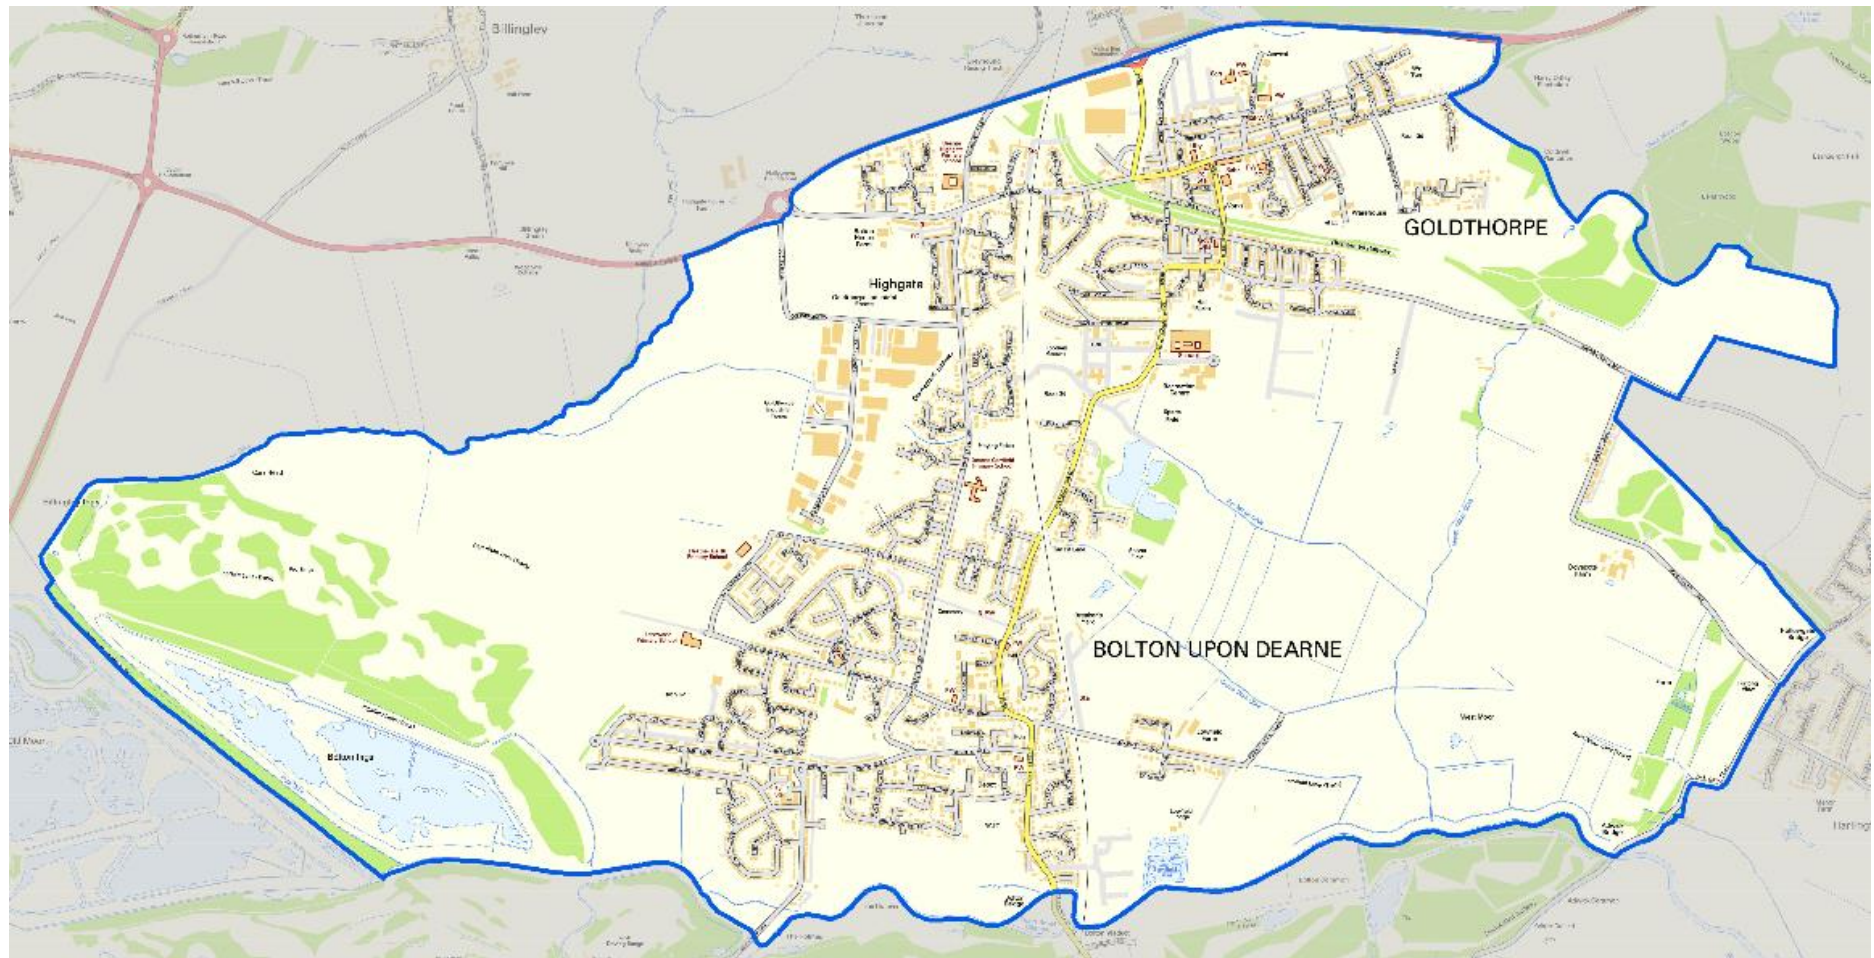

There are good transport links with railway service to both Leeds and Sheffield and the A1 and M62 motorways are easily and quickly accessible. There is a decent bus service providing public transport to both Doncaster and Barnsley.

Local area research

Turning Point is an organisation which supports communities to change the way they live. In 2013 they were commissioned by Barnsley Metropolitan Borough Council (BMBC) to look at the Dearne Valley (in which GB Big Local is located with a vision and a plan to collate information from the public to help shape the future of the area. They recruited 22 local people who were living in the Dearne and trained them as Community Researchers. They used a variety of methods to engage with the community to collect their opinions of the place in which they lived. The findings from this research have provided a good starting point for working on the themes for our Plan. Across the GBH Big Local Area recurring issues were highlighted that the community identified as things which affected them the most. A high percentage of residents are concerned about the following;

- the poor state of some of the houses in the area and the lack of proper management of these properties
- the state of the Environment
- debt and benefit related problems
- the lack of employment and training
- drug dealing and usage
- Anti-social behaviour

Figure 2 – Map of the Goldthorpe and Bolton on Dearne area

SECTION THREE

SHARED VISION

‘Goldthorpe, Bolton and Highgate’s vision for the future is one where good education and training prospects coupled with quality and affordable homes to live in, improved local facilities and supportive communities will promote active involvement in making our area a great place to live and work’

We’ve asked lots of people what they think of the area they live in, what they like and dislike about living here, what the issues are and what they think we could spend the £1 million on. We’ve used public meetings to listen to people, carried out questionnaires and used information collected to build a database of people who have expressed an interest in becoming involved in helping to make the changes. This database of contacts has been vital as our source of communication with local people and keeping them updated of what is happening and has led to the recruitment of volunteers to work on projects. It has also given us some useful information of some of the many skills and extensive knowledge that is available in the area.

We’ve worked hard to ensure we have targeted all different parts of the community including schools, churches, colleges, older people, community groups and professionals in the area e.g. housing, health, cleansing departments and the police.

Our progress to get where we are now has been discussed with our Local Trusted Organisation (LTO) which is VAB. We have attended Big Local events and workshops and employed a support worker to assist. We have also made sure that our Big Local Representative (Alistair Shaw) has been involved extensively in our planning progress and we have also worked alongside the other Big Local area (Thurnscoe) to deliver some of the themes in The Plan.

Where possible we are working together with other local initiatives such as the Dearne Approach helping to avoid duplication and support each other to improve the area for everyone.

This Plan has been designed to help local people to understand which aspirations are realistic and can be achieved by ourselves or which ones will need to be delivered in partnership with other agencies/organisations.

Example of Big Local working together - Dearne Community Cinema

One of the themes of our Plan is to provide things for people to do and residents expressed a desire for a Community Cinema. Thurnscoe Big Local also identified this need so we have worked together and put aside joint funding to run a pilot for the Dearne Community Cinema. A sub-group of volunteers was established to deliver this project made up from local residents, some of whom are members of the Partnership Boards of both GB and Thurnscoe Big Local.

The Dearne Advanced Learning Centre offered to host the cinema to provide not only the venue but also provide the catering. The School has a state of the art theatre providing a cinema experience with cinema type seating and excellent sound and vision. Initially four films were chosen which were aimed at different groups of people in the community.

The films proved very popular especially with young families and the elderly and it is hoped that in the long term the opportunity will arise for the cinema to continue as a social enterprise to bring self-employment to local residents.

Example of Partnership working - Housing Project

One of the over-whelming recurring themes that we found during our consultation process was that a large majority of the community wanted affordable decent housing which would also improve the look of the area.

Our Plan will include a housing project which will involve purchasing houses and using skilled apprentices to renovate the properties. The long term plan will involve building a portfolio of housing stock which again will have the potential to be a social enterprise. This project will need to be run in partnership with other organisations and agencies and will be a long term venture that will encompass many of the themes in our Plan. It will not be a 'quick fix' to the problem housing in the area and will take resources and time to start but the hope is that eventually it will be sustainable and be an income generator whilst creating better homes, improving the environment and creating jobs.

We have used subject themes that came out of a workshop that was held called, 'It's time to turn your ideas into our local plan' **(See appendix 3)**. This workshop brought local people together to come up with ideas and themes that they would like to see happen in their area and many of the ideas mirrored the findings that came out of the results from the Turning Point Community Research. This reaffirmed our belief that the things in our Plan really are the things that the community would like or they feel is needed in the area.

Themes

- **Increasing Community Spirit** – Providing opportunities to bring people together
- **More Leisure Activities** – Wider range of activities and things to do at affordable prices
- **Employment and training** – make opportunities to develop and earn a living
- **Environmental Improvement** – An attractive, safe and desirable place to live
- **Making Big Local happen** – establish strong foundations that we can build on for the future

The attendees at the workshop were asked to put their ideas under one of the above themes and then consider a set of questions for each of the ideas to help establish how each idea could be developed and achieved.

Ideas

- | | |
|---|----------------------------|
| ○ Housing renovation project | ○ CCTV mobile cameras |
| ○ Community Skills and Learning Centre | ○ Community Cinema |
| ○ Broadband for All | ○ Community Newsletter |
| ○ Community café in the Carnegie Centre | ○ GB Big Local Website |
| ○ Community mini-bus | ○ Community farm |
| ○ Environmental improvements | ○ Big Local Support worker |
| ○ Social events for all ages | ○ Small grants |

So what have we achieved so far?

Small grants scheme

We want our lottery award to work hard for us to ensure sustainability and generate more income but we also want it to have a real impact on the community when they most need it. We have used some of our start-up money to give some small community chest grants to local groups

So far a number of local groups and organisations have benefited from this scheme including;

- Dearne Valley Bulldogs Rugby Club -
The Bulldogs is a local rugby club for youngsters and they were holding a tournament and required funding for trophies etc.
- Goldthorpe Scouts Group
The scouts wanted some much needed camping equipment
- Goldthorpe Development Group
Goldthorpe Development Group wanted to put on a Halloween Party for local children.
- Youth activities at Highgate Club
- Craft events at the Community Hub
- Creative recovery live arts
- Brass band as part of Digging for Black Gold celebration

Inherent in the Plan will be the provision to give small grants to local groups and organisations that they can use to give real social value to the community.

Community Cinema

The cinema has shown a number of films to cater for all age groups and has provided an opportunity for the community to see affordable films in the local area. The cinema will continue and it is planned that there will be movie quiz nights and activities for children prior to the showing of the films which will be provided by Uplift under their Cafe Arts initiative. A sub-group made up of people from both Thurnscoe and Goldthorpe Bolton and Highgate Big Local and they are working very hard to promote and expand the cinema with the help of some local people with expert experience in the film industry. In order to promote the films as much as possible we have had some help and support to produce some great posters, banners and artwork for the films shown and these have been displayed in prominent places in the community **(See Appendix 4)**.

Flag poles project

We are planning to assist more local businesses to erect flag poles on their premises so that a number of themed flags can be flown, e.g. Yorkshire Day and Christmas flags. This will help to brighten the area and give an identity to Goldthorpe high street and support local businesses.

Dearne and District Juniors Football Tournament and Fun Family Day

This local group approached Big Local with the idea that they wanted to turn their annual tournament in a much bigger event that would appeal to a wider range of the community by incorporating a Family Fun Day and evening entertainment. It is envisaged that with a substantial start-up grant of £2,500 from Big Local (Pathway money) that this will provide a springboard for this group to build this event to be bigger and better each year. This event will be a good opportunity to bring a large percentage of the community together and fits nicely into our theme for more leisure activities and things to do. It will also bring different community groups together to work for the good of the

area. This event will take place on the 4th and 5th July 2015 and planning is underway to provide a range of entertainment and activities for the weekend.

Bounce into Summer Day

This is another fun family day that a local established community group, The Goldthorpe Development Group, run successfully last year and they would like to build on the success of this event which will be held in August at the Dearne Playhouse grounds. Similar the Dearne District Junior Club tournament it is envisaged that with support this year from Big Local then this event will be able to be sustainable to run every year with a start up grant of £2,000.

SECTION FOUR

PRIORITIES

What do we want to focus on first?

We want to focus on a number of areas in the first two years which were identified as being important in maintaining momentum and encouraging local participation. We want to focus on two major themes, these being the Housing Project and the Community Skills and Learning Centre in the first two years of our project. This will not be to the exclusion of anything else but they will take up the majority of our time and effort. We also recognise that to ensure that people see things happening we want to include a number of 'quick fix' themes that will continue to make an impact and make a difference to the community. We held a special meeting of our Partnership Board on the 30th March 2015 to talk about the draft Plan and to see whether we agreed on the priorities that have been identified for Years 1 & 2.

The areas we are going to focus on in Years 1 & 2 are:

- Housing Project
- Community Learning and Skills Centre
- Community Hub
- Project Worker
- Community Cinema
- Website and Newsletter
- Small Grants
- Social Events for all ages
- CCTV mobile cameras

SECTION FIVE

OUTCOMES

We recognise that if we are going to be an effective Partnership Board and deliver real changes locally then we need to have ways of measuring what we've done and whether this has made any difference. We see *outcomes* as being changes to peoples' lives, for example, whether they can see a difference to the way the area looks than it did 12 months ago. One of the ways of doing this is to review and assess The Plan on a regular basis.

A small number of our group attended a workshop called Reviewing Big Local Plans which covered how to assess and measuring changes. This is an important function that ideally will need to be carried out on an annual basis to ensure that we are on track and that we are accountable for what we are doing, or identify what we could do better. This process will allow us to check that our outcomes are being met and there are a range of tools and guidance provided by Local Trust.

Our measures are identified in Figure 3 and we will use a collection of different measures to assess them seeking guidance when necessary from Local Trust and its' national partners;

Figure 3: Our Themes and Outcomes

Improvement Area/Theme	Outcomes
Community Spirit	Percentage of people who believe that people from different backgrounds get on well together Percentage of people who feel they belong to their neighbourhood Overall satisfaction with the local area
More Leisure Activities	Participation and attendance at events
Employment and Training	Overall employment rate People feel more confident and have more skills Number of apprentices
Environmental Improvement	Improved street and environmental cleanliness (graffiti, litter, fly-tipping, dog fouling) Average Sale or rental value of properties in the area
Making Big Local Happen	Percentage of projects delivered Percentage of people who know about Big Local and greater community participation

SECTION SIX

ACTION PLAN

Process, activities and projects

Everyone on the Partnership Board and the local community and stakeholders who have worked really hard in getting this far are now excited about the prospect and the possibilities that getting a £1 million presents. We would like to do everything but recognise that some careful planning is now needed to start to implement some of the projects and start seeing some real differences by starting with our priorities for the first two years covered in Section Three of this Plan.

We have recognised that we will need to work with a number of local organisations, all of which are trusted organisations with local or national credibility, to help us deliver these priorities and some of these include:

- Barnsley Council including Bernslai Homes
- Goldthorpe Development Group
- Dearne District Junior Football Club
- Dearne Community Cinema Group
- Local businesses
- Department of Works and Pensions
- Local schools and colleges
- Dearne Approach
- Ward alliance North and South
- Safer Neighbourhood Team

We are always looking to work with any group or organisation that may share our vision and can help achieve our common goals. If you are interested in any of our projects and would like to get involved and help out or if you are aware of any people we can work with please let us know.

Further details of how we see we will deliver these projects can be found in Appendix 3, 'It's time to turn your ideas into our Big Local Plan'.

SECTION SEVEN

COMMUNICATIONS PLAN

Big Local in our area is going to be delivered by a Partnership Board which works with local people and a range of agencies and organisations that are identified below. This is not an exhaustive list as we recognise the importance of effective communication with as much of the community as possible and with other organisations and stakeholders that need to be involved.

- Barnsley Council including Bernslai Homes and the area teams
- Police
- Safer Neighbourhood Team
- Community groups and organisations
- Local councillors
- Local businesses
- Department of Works and Pensions
- Local schools and colleges
- Apprenticeship schemes, e.g. Barnsley Build
- Voluntary Agencies
- Salvation Army
- Local care homes
- Local churches

Board members are not elected but they do represent the community. We think it is important that our decision making and actions are accessible and transparent and we aim to make all our plans publically available as well as our notes from our meetings and our project appraisals etc.

Here is what we have already done or are planning to do to ensure effective communication is at the forefront of everything we do:

Website: We are currently working to set up a website for our Big Local group. The website will be a great place to let the community and stakeholders know about the Plan and projects and what our vision is for the area. It will have minutes of all or previous meetings, a copy of the Plan and a section showing what we have achieved and what we will be currently working on. There will be a list of all the partnership members with contact details and an email address so they can be contacted directly. We will also look at developing Facebook and Twitter site to try and attract younger people and get them involved.

Newsletter: We are using some of the Pathway money to produce a newsletter which we will intend to issue twice a year initially and increase production in time. We plan to have the newsletter produced and delivered to every residential and business in the area by a local printers.

Leaflets: We have had some leaflets designed to promote our Big Local using a local printing company (**See Appendix 4**). Three different designs were produced and a section of the community and the partnership board members voted for their favourite which will now be used at events and projects.

Local consultation: If we are working on an initiative which might be contentious or affect a specific group of people we will consult with people living in that area by leafleting, door knocking or organising a focus group.

Annual meeting: We will intend to hold an annual meeting for local people where we will outline what we have achieved over the past twelve months and set out our plans for the next year and encourage participation.

Media relations: We will use the local media to promote our projects and events to try and boost interest and participation in our work and to make sure that our work has a wider audience.

Accessibility: We will be mindful that people will need to access our information in a range of different formats for example, large print, translation, Braille etc and will respond to any requests for a different format if approached to do so.

Communication Plan: As part of our Planning for Themes event we also considered very carefully how we would communicate and who we would communicate with. We used post it notes to give a diagrammatic visual reminder of the many different ways we will communicate and including as many different groups of people, businesses and stakeholders as we could think of.

SECTION EIGHT

GOLDTHORPE AND BOLTON ON DEARNE LOCAL PLAN FOR OUR ENTIRE COMMUNITY

Our Plan

Hopefully readers of this Plan will recognise that we are taking a measured approach to making the sustainable changes to our area that the community have identified as needed over the 10 year term of our lottery award.

We really want to develop projects in the first two years that will have the biggest impact and that people will be able to see the difference when they are out and about. This will mean taking a strategic approach to deliver these types of projects as whilst they might affect the area as a whole they will sometimes be specific to individual streets or clusters of streets.

This Plan is the culmination of over two years work involving public meetings, consultation, community projects/events and building relations with local residents, businesses and organisations/agencies including local schools, community groups, the Police, local churches and volunteers.

It represents the hopes and ambitions that we have to make our area a better, brighter, nicer place to live and work, not just for today but for the next 10 years and beyond that.

The Plan will affect everyone who lives in our area and our Communication Plan will ensure that everyone in the area has the opportunity to understand, contribute and participate in making some real and lasting changes to our community.

SECTION NINE

REAL ISSUES, BIG CHALLENGES AND TRYING NEW THINGS

Real issues

The Plan has evolved from the real issues that are affecting people living and working in our area and is a reflection of some frustration that the council are increasingly unable to deal with these issues. Whilst there have been several initiatives in the past they have proved to either not be sustainable or not what the community really want.

Big Challenges

We are determined to address the issues that people have said will have the biggest influence in their area by working together and building strong links to ensure that the changes will continue to have a lasting effect for many years. One of the biggest challenges that we face is to maintain momentum and volunteer interest to keep delivering the projects and events. It is our belief that as Big Local develops in our area these challenges will be overcome.

Trying new things

Big Local is a fairly new concept that gives communities a real chance to shape and implement the things that will make the biggest difference to them and the area they live in. It is a great opportunity to experiment and try new and different things that without Big Local would probably not happen, a great example of this is the Dearne Community Cinema. The people of Goldthorpe, Bolton and Highgate have demonstrated their commitment to Big Local and shown that they have the vision to make their areas a better place to live. The Partnership Board are passionate about driving forward the Plan with the help and support of the whole community to make a lasting and positive difference to our area.

SECTION TEN

BUDGETS

Over the next few pages you will find a number of tables which show our financial planning in some detail.

Our budgets are based on actual data wherever possible or on informed estimates where there is a lack of actual data. The budgets will be reviewed alongside the rest of the Plan and it may then be necessary to revise the budget in light of that review.

We would like to highlight the fact that there may be the need to make a submission to Big Local for additional funds part way through a financial year especially for some of the larger and more adventurous projects, e.g. housing project, training and employment and Environmental works.

GB Big Local Plan expenditure forecasts to including 6-month periods over the first two years

Local Priority/Theme	Project/Activity task	Start date (MM/YY)	End Date (MM/YY)	Cost (£)	Organisation delivering	Year One		Year Two		Year Three
						1-6 mths	7-12 mths	1-6mths	7-12mths
